

**Peter Merrill, Construction Dispute Resolution (CDRS)  
and  
David Nason, Best Inspections**

**present**

**Arbitration - Knowledge is Power!**

Course Description

CDRS President and CEO Peter Merrill will educate everyone in attendance on the power that an arbitration clause wields in an inspection agreement.

Not all clients (and their attorneys!) will want to go that route if they discover something they feel was missed or under-reported once they move in. But *an agreement/contract is an agreement/contract* and should be UPHELD!

Peter will explain the laws in place to protect you and the process you may have to go through to make certain arbitration is enforced.

David Nason, as an experienced WAHI Home Inspector member and a trained CDRS Arbitrator, will share his experiences in the process from a home inspectors point of view, as well as, that of an arbitrator.

The arbitration path is an incredible member-benefit to WAHI members, offering a fair equitable process at a far lower cost than courtroom litigation.
